

tree of knowledge

ELROY S. THOMPSON
LIFE INSURANCE
55 HIGHLAND TERRACE

November 25, 1936.

Dear Dr. Peterson,

At last I have had a talk with County Commissioner Bailey and found out that a drawing of a design to be fashioned in metal to represent an oak tree and act as a support for the wooden sign now in use was as far as he went, in the matter of a marker for the Tree of Knowledge. He thinks the drawing is in the possession of Mr. Herbert Walker of Duxbury.

Dr. Bumpus asked me, in his absence, to submit expense bills to you for your approval. Therefore the enclosed, including envelope which you may find convenient to use in getting the bills, when approved, to the selectmen.

From now on, I shall be writing the Duxbury book in Brockton, saving expense of transportation most of the time.

With kindest personal regards; more especially wishing you the joys of the holiday season, I am,

Sincerely,

Elroy S. Thompson
